### TREMONT'S COWBOY POLICE.

That Is Big with Results.

There was a round-up of horses and cattle a the Annexed District this morning that for a few hours gave suburban residents all the experience of life on the plains. Policemen became cowboys for a time, but

nstead of swinging lassoes high above their heads while riding at break-neck speed on Texas mustangs, they took the less hazardous method of "shooing" the fleeing animals into some convenient corner that could be utilized as a trap. At least that is what observers say, but the "coppers" themselves unani-mously claim that the animals were made prisoners of war in the most approved style. At the same unseasonable hour Policeman Dush was yelling "hey, there!" to thirteen Westchester County cows in Bedford Park. Each cow possessed a bell, and in the opinion of the would-be sleeping residents each bell was also "possessed."

Four nours later Policeman McKeon way-laid five cows on Columbine avenue and took them into custody. The cows offered no resistance and were committed to an inclosed pasture without bail.

On Policeman Connelly's belt, however, hangs the greatest number of bovine scalps, lie hist found seven of the night marauders while tramping through the mudo' Seego place. Soon afterwards he cornered eight more on the Boulevard, and to crown his work of glory he successfully "rounded up" four mules and three horses.

Policeman Jesse, who had opened the crusade, way jealous of his reputation, and, after Connelly's hau, made an expedition along Pelham avenue, the result of which was an addition of three white and two yellow cows to his sarly morning record.

The officers at the Kingsbridge police station have oeen drinking milk shake all day and refuse to accept the usual supply of the condensed article.

Official figures from the police returns show that in the "round-up" there were gathered in thirty-eight cows, seven horses and four mules. Later in the day an aged oilly goat was suppressed for suspicious reasons. Two teams of horses found on Bathgate
